Original Research Article

ABSTRACT

Introduction: Siddha Medicine is a system of Traditional Medicine originating in ancient Sri Lanka and Tamil Nadu in South India. Traditionally, it is taught the *siddhars* laid the foundation for this system of Medication. *Agastyar* is considered the first *Siddhar* and the guru of all *siddhars*. Siddha system considers the human body as a collection of tri-humors & seven basic elements. *Vatham*, *Pitham* & *Kapham* are the tri-humors which are the life constituents of the human body. The equilibrium of humors is consider as health & its disturbance or imbalance leads to disease.

Aim and Objective: The aim of the study is to identify the 4448 diseases according to the Siddha Literatures.

Results and Discussion: 4448 diseases are mentioned in *Agasthiyar 2000*, *Angathipatham*, *Noi Naadal Noi Muthal Naadal part I* and *Theriyar vaakadam*. *Siddhar Aruvai Maruthuvam* book stated that Head and neck diseases are 1008. Diseases are classified according to anatomical structures of body parts, tri humors and diseases. Totally, 93 diseases are explained in all five books. In *Noi Naadal Noi Muthal Naadal Part II*, 51 diseases and its types and In *Yugi Vaiththiya Sinthamani*, 27 diseases and its types are explained in the books. Totally, 544 and 431 Number of diseases are explained in the text *Noi Naadal Noi Muthal Naadal Part II* and *Yugi Vaiththiya Sinthamani* respectively.

*Corresponding author: E-mail: r.rakulini@gmail.com;

Conclusion: This study has given quite evidence about 4448 diseases. These collected information are helpful for further studies in types of diseases.

Keywords: 4448 diseases; Siddha medicine; Siddha pathology.

1. INTRODUCTION

1.1 Background of Study

Siddha Medicine is a system of traditional medicine originating in ancient Tamil Nadu in South India and Sri Lanka. Traditionally, it is taught that the *siddhars* laid the foundation for this system of medicine. *Siddhars* were spiritual adepts who possessed the *ashta siddhis* or the eight supernatural powers. Agastyar is considered the first *Siddhar* and the guru of all *siddhars*, the Siddha system is believed to have been handed over to him by Shiva [1]. Siddha system considers the human body as a collection of tri-humors & seven basic elements. *Vatham, Pitham & Kapham* are the tri-humors which are the life constituents of the human body. The equilibrium of humors is considered as health & its disturbance or imbalance leads to disease [2].

Expecting the diseases caused by our previous births, the diseases caused by our present birth are due to our food habits. This has been rightly quoted in the following verse by Saint *Thiruvalluvar*:

*Mikinum kuraiyinum noi saium noolor
valimuthala venniya moonru*

The food and actions of a person should be in association with the nature of his body. Any increase or decrease in a humor *Vali, Azhal, Aiyam* leads to the derangement of the three humors. The agreement of actions means his good words, deeds and actios. According to *Thiruvalluvar* the disease is caused due to the increase or decrease in the equilibrium of three humors [2].

The common causes for a person to be affiliated with diseases are mentioned in the following verse of *Theriyar* in his *Karisal*:

*Nokkarrena nadamaadi nokki nadamidalam
Noddakkaa rarinaadi nodd mozhi kurallal
Novaiyar maatharodu nova maruvuvathal
Nonpuvira thathipala norkavaru melival
Nonchajena vanukunuvu novavayiluvathal
Nondavari thenaverai nondiya ruthlal*

*Nonaatha veeramadi nonavani kuthalana
Noikalut paththivaku noikal vinai vithaiyai
Noikal vinai payalaime noikal valar pajirai
Nojuthavu palanaaki noikal veku melam
Nothaka vuraiththanaminth noikalara mela
Nojiniki lalar nonmaiya thiniya.*

This stanza said that the common causes for a person to be afflicted with diseases. There are anger, very hard work, wearing wet dress, sexual contact with a person afflicted with diseases, speaking loudly, talking too much, over eating and eating with aversion. Instead one should eat the right quantum and right quality of food at the appropriate time [2].

4448 diseases are mentioned in the Siddha Literatures. 4448 diseases are not clearly mentioned in any, Siddha Literatures So the researcher is going to identify the 4448 diseases according to the Siddha Literatures.

1.2 Aims and Objective

The aim of the study is to identify the 4448 diseases according to the Siddha Literatures.

2. METHODOLOGY

2.1 Study Design

It is a review of classification of 4448 diseases in relevant literatures.

2.2 Study Setting

Government Siddha Medical College, Palayamkottai from October 2019 to March 2020.

2.3 Data Collection

Data for the literature review were collected from *Agasthiyar* [3], *Angathipatham* [4], *Noi Naadal Noi Muthal Naadal part I* [5], 4448- *Viyathikal* [6], *Noi Naadal Noi Muthal Naadal Part II* [7] and *Yugi Vaithiya Sinthamani* [8] and websites.

2.4 Data Analysis

Collected data were processed and statistically analyzed by a simple statistical method using Microsoft Excel.

3. REVIEW OF LITERATURES

4448 diseases are mentioned in *Agasthiyar* [3], *Angathipatham* [4], *Noi Naadal Noi Muthal*

Naadal part I [5] and *Theriyar vaakadam. Siddhar Aruvai Maruthuvam* [6] book stated that Head and Neck diseases are 1008.

Table 1. Classification of 4448 Diseases according to the Siddha literatures

Classification of diseases	According to Agasthiyar 2000 (B1)	According to Angathipatham (B2)	According to Noi Naadal Part 1 (B3)	According to Theriyar vaakadam (B4)	According to Siddhar aruvai Maruthuvam (B5)
Total Number of diseases	4448	4448	4448	4448	-

44. <i>Kuddam</i>	18	18

Diseases	Noi Naadal Noi Muthal Naadal part II	Yugi Muni vaithiya sinthamani
45. Meha noi	-	20
46. Visa paakam	-	8
47. Chayam	-	12
48. Kaasam	-	12
49. Vippuruthi	-	7
50. Skin Diseases (Karappan)	-	7
51. Fistula (pavunthiram)	-	18
Total	544	431

In *Noi Naadal Noi Muthal Naadal Part II*, 51 diseases and its types and In *Yugi Vaiththiya Sinthamani*, 27 diseases and its types are explained in the books. Totally, 544 and 431 Number of diseases are explained in the text *Noi Naadal Noi Muthal Naadal Part II* and *Yugi Vaiththiya Sinthamani* respectively.

4. RESULTS AND DISCUSSION

Agasthiyar 2000, Angathipatham, Noi Naadal Noi Muthal Naadal part I and *Theriyar vaakadam* books have been stated that types of diseases are 4448. In *Agasthiyar 2000*, 4448 diseases further classified into 3. There are *Vatha* Diseases: 1482; It is caused by disturbance of *Vatha Thosam*, *Pitha* Diseases: 1483; It is caused by disturbance of *Pitha Thosam*. These diseases increase the body heat and inflammation and *Kapha* Diseases: 1483; It is caused by disturbance of *Kapha Thosam*.

Diseases are classified according to anatomical structures of body parts, tri humors and diseases. According to the tri humors, *Vatha* diseases and *Pitha* diseases are mentioned in *Agasthiyar 2000* and *Noi Naadal Noi Muthal Naadal part II*. Number of *vatha* diseases is approximately same (B1:84, B3:85). But in *Yugi Muni vaithiya sinthamani* book is mentioned that *vatha* diseases are 80 in number so number of *vatha* disease is 80 -85. Number of *pitha* diseases is not same in number (B1:83, B3:42). But in *Yugi Muni vaithiya sinthamani* and *Noi Naadal Noi Muthal Naadal part I* books are mentioned that *pitha* diseases are 42 in number so number of *vatha* disease may be 42. *Kapha* diseases are mentioned in *Noi Naadal Noi Muthal Naadal part I* and *Theriyar vaakadam*. Number of *Kapha* diseases is approximately same (96:100). But in *Yugi Muni vaithiya sinthamani* book is mentioned that *Kapha* diseases are 21 in number so number of *kapha* diseases is unable to state in actual number.

Diseases are classified according to the anatomical structures of body parts such as head, ear, mouth, eye, neck, nose, cheek, forehead, occipital region of the head (*Pidari*), upper limbs, abdomen, male genitalia, abdomen, scrotum, lower limbs, thigh region, lumbo sacral region, navel, rib cage, *thanaththil*, arm, chest, anal region, calf muscles and knee joint, heart, foot, joints, shoulder, bones, nerves, eye brow and groin region.

Diseases in ear, Diseases in eye and Diseases in nose are explained in number value in all 5 books. Number of diseases in eye is approximately same (B1, B2, B3, B5:96, B4:95). So, Number of eye disease is 96. Number of nose diseases (27) is same in *Agasthiyar 2000* and *Angathipatham*. Diseases in neck are explained in number value in 4 books. Diseases in head, Diseases in mouth, Diseases in neck, Diseases in cheek, Diseases in occipital region of head (*Pidari*), Diseases in thigh, Diseases in lumbo sacral region and Diseases in navel are explained in number value in 3 books. Number of diseases in cheek are approximately same (B1:40, B2:32, B5:49). Number of diseases in occipital region of head is equal in 2 books (B1:10 & B2:10). Diseases in forehead, Diseases in upper limb, Diseases in *abanan*, Diseases in back, Diseases in chest and Diseases in anal region are explained in number value in 2 books. Number of diseases in forehead is approximately same (B1:32, B5:26). Number of diseases in upper limbs is equal (B1: 130 & B2: 130). Number of diseases in anal region are approximately same (B2: 101 & B4: 100).

Totally, 93 diseases are explained in all five books. In *Noi Naadal Noi Muthal Naadal Part II*, 51 diseases and its types and In *Yugi Vaiththiya Sinthamani*, 27 diseases and its types are explained in the books. Totally, 544 and 431 Number of diseases are explained in the text *Noi*

Naadal Noi Muthal Naadal Part II and Yugi Vaiththiya Sinthamani respectively.

5. CONCLUSION

Agasthiyar 2000, Angathipatham, Noi Naadal Noi Muthal Naadal part I and Theriyar vaakadam books have been stated that types of diseases are 4448. Diseases are classified according to anatomical structures of body parts, tri humors and diseases. This study has given quite evidence about 4448 diseases. These collected information are helpful for further studies in types of diseases.

DISCLAIMER

The products used for this research are commonly and predominantly use products in our area of research and country. There is absolutely no conflict of interest between the authors and producers of the products because we do not intend to use these products as an avenue for any litigation but for the advancement of knowledge. Also, the research was not funded by the producing company rather it was funded by personal efforts of the authors.

CONSENT

It is not applicable.

ETHICAL APPROVAL

It is not applicable.
